

2024 Subject Index

Aged	1	Invasive ductal breast cancer	33
Anjiography.....	68	Lesion characterization	28
Assessment tools.....	1	Liver.....	47
Awareness	1	Liver failure.....	47
Axillary lymph nodes.....	41	Lumbarization	51
BI-RADS 5	28	Lumbosacral transitional vertebra.....	51
Bizarre parosteal osteochondromatous proliferation	17	Magnetic resonance imaging	20, 28, 37, 51
Blunt cerebrovascular injury.....	5	Mammography	20, 33, 37
BPOP	17	Mesenteric lymphadenitis	13
Breast cancer	28, 41	MRI	37, 55
Breast elastography	20	Muscle atrophy	55
Calculous cholecystitis.....	63	Nora lesion.....	17
Cervical bone	5	Osteochondroma	17
Cervical spine.....	5	Osteolytic bone lesion	17
Cholecystectomy	63	Percutaneous cholangiography.....	63
Computed tomography	68	Percutaneous cholecystostomy	63
Cost-effectiveness analysis.....	9	Percutaneous transhepatic gallbladder drainage	63
DCIS	37	Percutaneous transperitoneal gallbladder drainage.....	63
Diagnosis.....	1	Physical abuse.....	1
Differential diagnosis	20	Radiation exposure.....	9
Ductal carcinoma <i>in situ</i>	37	Rotator cuff	55
Dynamic contrast-enhanced MRI.....	28	Sacralization.....	51
Elastography	41	Shear wave elastography.....	41
Elder abuse	1	Shoulder.....	55
Elderly	1	SIRS.....	13
Emergency medical services.....	9	Sonography	41
Emergency radiology.....	13	Spinal surgery	51
Endovascular stent-graft.....	68	SWE	41
Fever.....	13	Tendon	55
Fractional inspiratory oxygen concentrations	47	Thoracic aortic aneurysm.....	68
Fracture.....	5	Tomography.....	9
General anesthesia	47	Traumatic brain injury	9
Human epidermal growth factor receptor subtypes.....	33	Ultrasound	20
Idiopathic granulomatous mastitis.....	20	Unnecessary CTs.....	9
Imaging.....	47	Vascular injuries	5
Independent medical evaluation.....	1
